Subject: Fuel Surcharge Information 9/2/2008

The national average for diesel fuel was announced on September 2nd by the Dept of Energy at \$4.121. The fuel surcharge corresponding to that price varies by tariff as follows:

Tariff	09/15/08 - 10/14/08
NVL100	16%
415G	Formula Based *
D14/400NG	17%

*** GSA Formula** *(not subject to bottom-line discount. All calculations are truncated to two decimals, not rounded.)*

Total Billable Miles DIVIDED by 5 Miles-Per-Gallon

Multiplied by

An amount equal to the DOE National U.S. Average Diesel Fuel Price LESS \$1.949

EQUALS the amount of the Fuel Surcharge to apply

For example, if the DOE average fuel price is \$4.121, the Fuel Surcharge to apply on a shipment moving 750 miles would be calculated as follows:

150 Gallons (750 Miles Divided by 5 miles per gallon) - Multiplied by \$2.17 (\$4.121 less \$1.949) per gallon - Equals an applicable Fuel Surcharge of \$325.50.

In addition to a monthly memo, similar information on the Fuel Surcharge is available on the Fuel Surcharge Hotline at 800-323-1962 extension 3835 (FUEL).
