REWEIGH FAQ'S ON DOMESTIC SHIPMENTS

It is NFC's policy that the hauler is always responsible to reweigh a loose load shipment. If the hauler fails to reweigh, we may request that the SIT agent performs a reweigh prior to delivering out of SIT. If a shipment is containerized, the destination agent is responsible to reweigh.

Which shipments need to be automatically reweighed?

Customers with pay grades E-1 thru E-5, shipments weighing 4000 lbs or more are required to be reweighed.

Customers with pay grades E-6 thru O-10, shipments weighing 7000 lbs or more are required to be reweighed.

Pay grades can be found in Block 10 of the GBL.

When and where should a shipment be reweighed?

Per the 2022 400NG, Note 3 Item 4, "When PPSOs request a reweigh, the reweigh must be completed at destination (prior to storage or delivery) with sufficient time to allow the government or the customer an opportunity to witness the reweigh." It is preferred that the reweigh occurs as close as possible to the delivery address or DA's warehouse. Reweigh the shipment on the day it is offloaded, getting the gross weight immediately before and tare weight immediately after offloading, using certified scales.

What documents are required to be submitted when a reweigh is performed?

The agent who performed the reweigh must submit legible copies of the reweigh tickets to NFC within 3 Government Business Days of the reweigh. To be considered valid, both the gross and tare reweigh tickets must be legible and list:

- Weight ticket #
- Weighmaster signature
- Reweigh date and location
- Customer's last name
- GBL number
- SCAC
